# COMPANY INTRODUCTION

## Our core values,

### **"Empowering People, Building Partnerships, Achieving Purpose with Professionalism and Integrity."**

At Soldevco (Pty) Ltd, we believe in the power of people, partnerships, and purpose. We are passionate about our work and are driven by the desire to deliver professionalism and integrity in everything we do. We believe that by treating our employees and customers with dignity and respect, we can create a safe and inclusive workplace that celebrates diversity.

### **"Empowering progress through accountability and innovation"**

Empowerment and accountability are at the core of our values. We are not afraid to take on challenges and turn them into opportunities. Our leadership style is proactive and client-focused, and we are always looking for ways to improve and innovate. We understand that the satisfaction of our customers is the foundation of our success and longevity, and we are dedicated to managing your business with the same level of care and responsibility as if it were our own.

## What we do,

### **Project Support and Water Quality Solutions**

**"Building a Better Tomorrow, Today:** At SOLDEVCO/Ultra-Oxygen, we are dedicated partners in sustainability, driving change through innovative technology and sustainable solutions for a greener future. United in collaboration, we optimise success for our clients with a solution-driven approach, always prioritizing quality without compromise."

At SOLDEVCO/Ultra-Oxygen, we are passionate about creating a greener, more sustainable future for all. Our focus is on industries that align with our expertise and innovative technology, including **project support, agriculture, aquaculture, aquaponics, water quality, and wastewater treatment.**

We believe in the power of collaboration and strive to build long-term partnerships with our clients. We shift the traditional business model of selling to one of collaboration, where the goal is to create mutually beneficial relationships that drive positive change and promote sustainability. Join us as we work together towards a brighter future.

**"WE ARE IN THIS TOGETHER".**

## Focus points,

**Project Support** - For a quarter of a century, we have been at the forefront of delivering exceptional project support services to clients across a range of industries. Our unwavering commitment to building strong, trustworthy relationships with our clients has allowed us to serve as their trusted advocate and guardian of their interests. Our unparalleled expertise equips us to effectively manage all aspects of construction projects, from coordinating professionals and contractors to procuring materials and equipment. Whether you're a small or large business, we are here to support and guide you towards success.

**Water Quality Solutions** - At Ultra-Oxygen, our passion lies in elevating water quality to new heights. We specialize in innovative aeration techniques using Micro and Ultra-Fine Bubbles (MB/UFB) technology to enhance water and wastewater treatment processes, Water Quality Monitoring and Control, Bioremediation, and Water Disinfection. Our commitment is to deliver oxygen to plant roots and microorganisms for optimal results, benefiting industries such as agriculture, aquaculture, horticulture, aquaponics, and wastewater treatment, supply and implement award winning biocatalyst

for enhanced bioremediation, and utilizing the latest disinfection technology that uses the quantum mechanics principles of electron movement to create catalytic active surfaces (positively charged) that disintegrate any microorganism instantly, upon contact. We partner with our clients to tailor solutions that meet their unique project requirements and drive towards a brighter, healthier future for all.

## Core services we offer,

### **Client Representation**

Unleash the Power of Expertise - Trust us to Drive Your Project to Success. With a track record of delivering exceptional results and +25 years of industry experience, including serving as President of the Boland Master Builders Association, our CEO leads a team dedicated to surpassing your expectations. Let us represent you as the client, guiding your project every step of the way as Lead Consultant, Principal Agent, or Project Manager.

### **Drawings and Engineering**

We understand the pivotal role of experts in driving the success of your project. That's why we're dedicated to finding and partnering with the best Architects, Draftsmen, and Engineers for your specific needs. Our skilled negotiation and cost-management strategies ensure that your project not only runs smoothly but also stays within budget. Trust us to elevate your vision to reality with our commitment to quality and affordability.

### **Property Development, Improvements, and Upgrades**

Unleash the full potential of your property investments with our expert guidance and support. As seasoned property development specialists, we are dedicated to helping national and international clients find the perfect opportunities to thrive in their investments. Whether you're in the market for new developments, need assistance with property upgrades, or are searching for a reliable investment partner, we've got you covered. With our expertise and cost-effective solutions, we are committed to ensuring your property development projects reach their full potential. Contact us today and experience the difference with our comprehensive property development services.

### **Construction Support**

We understand the importance of maximizing your investment and delivering successful projects. That's why we offer a thorough and comprehensive review of your project to identify cost-saving opportunities and minimize risks. With a focus on both patent and latent defects, we work with you to ensure that your project is completed to the highest standard, with minimal costs and maximum efficiency. Trust us to be your trusted partners in delivering your dream project.

### **Optimizing Water Quality**

Inspiring sustainability through innovation, SOLDEVCO is your partner in creating a greener future. Our passion for environmental technology drives us to design innovative and efficient aeration solutions for water quality management, wastewater treatment, and water conservation. Join us in our mission to make a positive impact and bring your water projects to the forefront of sustainability.

# Ultra-Oxygen Water Quality Solutions

## Wastewater

UO2-MB/UFB aeration is used in water and wastewater treatment processes to deliver dissolved oxygen to microorganisms responsible for the biological oxidation of carbonaceous material and ammonia.

## Agriculture

Micro and Ultrafine enable the cost-effective use of dissolved oxygen to improve water quality to help repair soil, promote nutrient uptake, increase plant health, and suppress root disease.

## Aquaculture

When fish populations are tightly packed, a shortage of dissolved oxygen is inevitable because the fish and shellfish consume more oxygen from the water. Improving water quality sustainably for reuse is a significant advantage for farmers.

**UO2-Drylet supplementary award-winning Biocatalyst** for enhanced bioremediation assures viability of microbes, protects microbes from phages and predators by housing them in a special patented silica substrate, ensures retention of microbes in the system, is very effective in liquid and solid layers. Contact us for more product information on AQUA-ASSIST, BIO-REACT, and MANURE MAGIC.

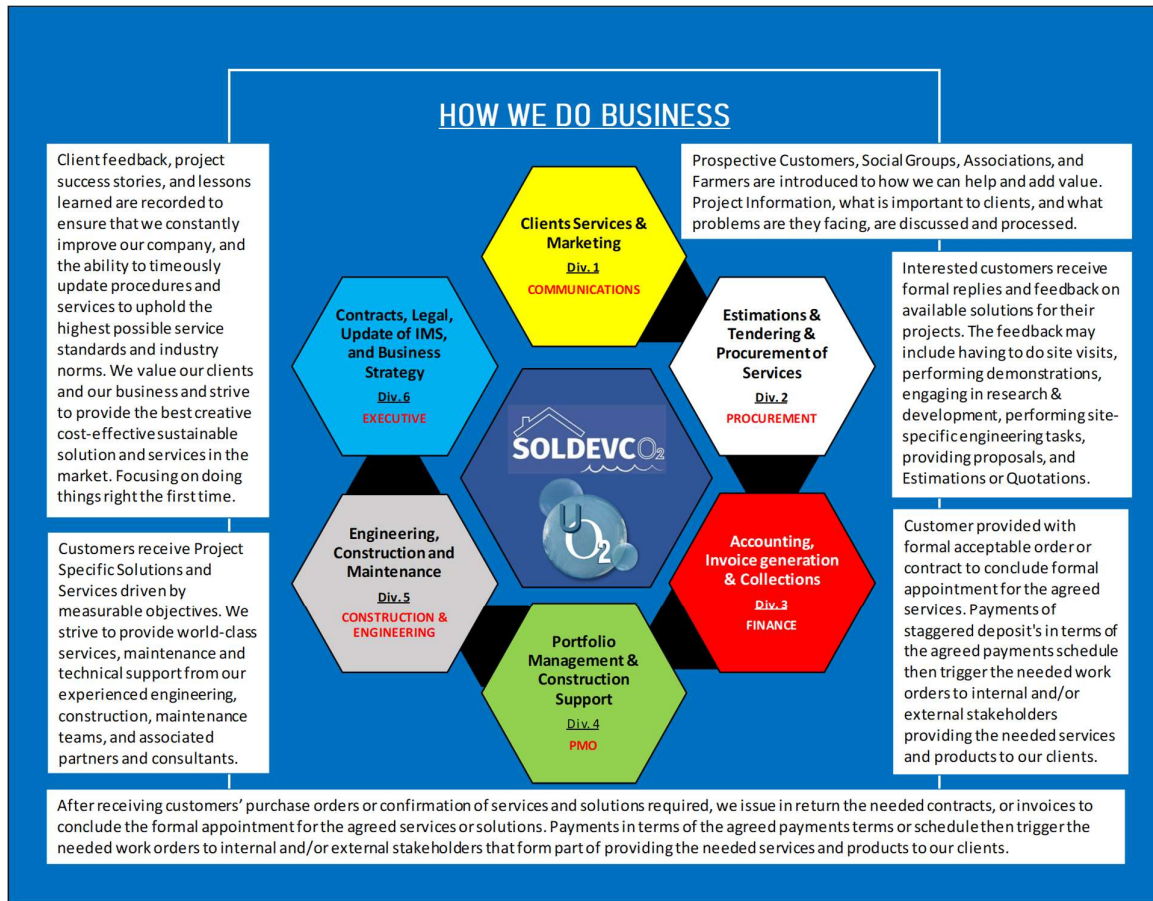

**UO2-Quantum Disinfection™ (QD)** a new technology that uses the quantum mechanics principles of electron movement to create catalytic active surfaces (positively charged) that can disintegrate any microorganism instantly, upon contact.

*"Empowering change for a better tomorrow with cost-effective, eco-friendly, and sustainable solutions."*

## How we manage our business

At Soldevco, we take pride in our exceptional ability to manage your business with empathy and precision.

Our dedicated team understands that your business is unique, with its own set of challenges and goals. With this in mind, we approach every project with a deep sense of understanding and compassion, ensuring that we not only meet your expectations but exceed them. We listen attentively to your needs, working closely with you to develop tailored strategies that address your specific requirements.

Our commitment to exceptional management means that we anticipate obstacles and proactively find solutions, all while keeping your best interests at heart. Trust us to navigate the complexities of your business with care and expertise, allowing you to focus on what truly matters – achieving success and growth.

Furthermore, our exceptional management extends beyond borders as we proudly collaborate with clients around the globe. We believe in the power of partnerships and the strength that comes from working together towards a common goal.

If you are seeking a trusted partner to expand your business, we are open to forming strategic alliances and welcoming distributors interested in our cutting-edge technology and services.

Together, we can unlock new opportunities and drive innovation in the industry. Join us on this exciting journey as we pave the way for a brighter and sustainable future, transforming challenges into triumphs on a global scale.

## How we manage our projects,

Detailed Actions from Start to End of PROJECT LIFE CYCLE
ID and Capture Lead or Potential Client.
Request Engagement
<b>Phase 1</b> - Engagement Request Completed.
Ultra-Oxygen / Soldevco - Introduction
<b>Phase 2</b> - Engagement Confirmation Received with project brief info.
Create project --c-- folder and schedule Lead Review Teams Meeting
Lead review & risk determination
Service Quotation/Client feedback
<b>Phase 3</b> - Services Quotation delivered
Obtain Client Feedback
<b>Phase 4</b> -Service Request Appointment & Payment
Site Visit - Onsite project-specific engineering – Value engineering (Future Focused)
<b>Phase 5</b> - Draft Project Proposal Completed.
Engineering and Installation Quotations
<b>Phase 6</b> - Engineers and Installation Review Added to Draft Proposal.
Financial review and complete Final Draft Project Proposal
<b>Phase 7</b> - Financing Review Completed.
Obtain Project proposal Sign-Off. And arrange a presentation date with the client.
<b>Phase 8</b> - Project Proposal Presentation
Obtain client feedback and approval of the proposal.
<b>Phase 9</b> -Appointment and Payment received
Contract signing and handing project to Project Management Office (PMO)
<b>Project Implementation - Construction - Installations &amp; commissioning</b>
<b>Phase 10</b> -Project Execution-Implementation Completed
Project Close-Out phase (Guarantee and final account payments period.)
<b>Phase 11</b> -Project Close-Out Completed
<b>Phase 12</b> -Start of Client Operational Support Services

While we operate within the framework of ISO management standards to ensure efficiency and quality, we understand that each business has its own unique culture and practices.

At Soldevco, we embrace flexibility and adaptability, allowing us to seamlessly integrate with your existing business culture. We believe in fostering collaboration and open communication, ensuring that our partnership is built on mutual trust and understanding.

Whether you are a small local enterprise or a large multinational corporation, we have the capacity and willingness to align our approach to complement your organizational values and goals. Together, we can create a harmonious synergy that propels your business to new heights of success.

## How we achieve success,

*“We listen, find solutions, and solve problems by asking the right questions.”*

From the CEO's desk,

## HEINDRÉ RADEMAN

LinkedIn: <https://www.linkedin.com/in/heindrerademan>

We at SOLDEVCO/Ultra-Oxygen believe that a greener future is within reach, and our mission is to bring sustainable solutions to those who are serious about making a change. As a solution-driven firm, our focus is on optimizing productivity and profitability without sacrificing quality in the construction and water-related industries.

Our approach to business is centred around collaboration, as we believe that working together towards a common goal lead to greater success. This is why we don't have clients; we have partners. Our services range from project support and representation to construction support and water quality solutions.

Inspiring excellence through 25 years of trusted relationships, unparalleled project support, and cutting-edge water treatment solutions- that's what drives us. Our water treatment department, Ultra-Oxygen, specializes in aeration and optimizes water quality with our micro and ultra-fine bubble technology.

We believe in helping our partners complete their projects in a cost-effective and risk-free manner, and our services include everything from telephonic support to project management. Our passion for environmentally friendly solutions extends to our research and development of dissolved oxygen and wastewater treatment solutions.

At SOLDEVCO, we are not just consultants, we are confidants. Our CEO's experience and leadership, combined with our energetic professional support team, make us the ideal sustainability partner for your next project.

Let's work together towards a greater, greener future.

Looking forward to hearing from you soon.
